APPROVAL OF STATE ENGINEER
This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
following limitations and conditions: This permit to change the point of diversion
of the waters of an underground source as heretofore granted under
Permit 20978 is issued subject to the terms and conditions imposed in
said Permit 20978 and with the understanding that no other rights on
the source will be affected by the change proposed herein. The well
shall be equipped with a 2-inch opening, an air line and a weir or other
type of measuring device at or near the well to facilitate the measure
ment and control of the water. If well is flowing, a valve must be in
stalled and maintained to prevent waste. The State reserves the right
to regulate the use of the water under this proposed change at any and
all times.
The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not
to exceed 5.4 cubic feet per second, but not to exceed a
yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or
all sources. Actual construction work shall begin on or before
Proof of commencement of work shall be filed before August 7, 1967
Work must be prosecuted with reasonable diligence and be completed on or before July 7, 1967.
Proof of completion of work shall be filed before August 7, 1967
Application of water to beneficial use shall be made on or before
Proof of the application of water to beneficial use shall be filed on or before
Map in support of proof of beneficial use shall be filed on or before August 7, 1969
